

Introduction

These release notes provide information regarding the new features, enhancements and existing bugs that have been addressed in the current release.

Release Number: R1.1.1

Release Date: 8/30/2022

Version: 1.0

Resolved issues

Issue	Description
Participant Data correction in Prod	Changes include participants deleted, eligibility determination dates updated, and updated participant status
Case Manager Drop-down Field	The Case Manager drop-down field when creating a new case now includes case managers, supervisors, and grantee or sub-grantee admins for the selected grantee
SSN Starting with Zero	An SSN that starts with zero can now be entered for a new participant when creating a case and the system will not allow the same SSN to be used for multiple participants
