	<ul style="list-style-type: none">• Fixed label for generating QPR addendum in admin console• Updated column header in Approved Breaks in Service report from Case Worker to Case Manager
--	--

Known Issues

- The Internal QPR functionality is not available to end users as the team works to build out all required calculations and data transformations
- The read-only role for grantees is being fully built out as part of the 1.2 release
- The Upload Bulk Transfer process is currently not working properly and will be worked on in an upcoming release
