

Release Number: 1.3.1

Version: 1.0

Release Date: 12/02/2022

New Features & Enhancements

- None

Resolved issues

- Fixed high impacting production issues, as reported by users, with reference to tickets as below:

Tickets	Production Issue	Fix
SCSEP-2219	Update the City field in org searches to allow partial search values	The UI fix will allow users to search the City field with a partial value
SCSEP-2273	Multiple Users are not seeing dropdown as "SCSEP" once logged in through login.gov	The UI fix would allow the users to see the dropdown as "SCSEP" once logged in through login.gov
SCSEP-2459	PreProd-Data Migration Issue: Any Training and Services listed for Assignments is also duplicated in Placement	Backend data fix deployed to correct ASSIGNMENT_ID = 11786085, which was showing up under both Service and Placement tabs in the UI, this allows assignments to be displayed correctly.
SCSEP-2562	User did not receive Eligibility Approval Task-Case ID 10241260	Backend data fix will be deployed to add Eligibility task for Case ID 10241260
SCSEP-2578	Users are receiving Task/Notification for 7 days without an assignment for participants in Waitlist status	Backend data correction script included to clean up the records in the system
SCSEP-2626	Incorrect assignment date is displaying under PRA_Orientation	The UI fix will display assignment date in validation under Orientation and a validation will display under Participant Safety consultation if any date prior to Assignment date entered.
SCSEP-2681	Certain users cannot add hours to participant records	The UI fix will allow the user to access the Manage Paid Hours Console
SCSEP-2688	Prod-Clean up follow up data for outcome_employment_ID 12090400	The reported user will be able to save Follow-Up 2 and 3 data

SCSEP-2706	User is reporting duplicated hours in Manage Paid Hours Console	Backend data fix will be deployed to remove duplicated hours in Manage Paid Hours Console
SCSEP-2717	Prod-Multiple Extensions are being created for participants	Updated the DB query that returns the extension data to get the required result
SCSEP-2731	Prod-Unable to paginate through Assignments	Fixed UI to allow participant view all assignments and user to sort any columns to view the latest Assignment
SCSEP-2733	Prod-Data corrections as of 11/14/2022	Backend data correction script included to fix data issues, including: Approved Break, Eligibility Date, Recertification, Case Status, Exit Reason, Recertification for Exited Participant, Duplicate Recertification, Withdrawn Status, Deceased after Exit.
SCSEP-2745	Add constraints in backend for Paid Hours Table	Added constraints in backend not to allow users to create duplicate paid hours
SCSEP-2754	Add Safety Consultation Date for PID 9506910	Backend data fix deployed to add Safety Consultation date 09/15/2022
SCSEP-2772	Organization Name Changed after an Assignment is made	Backend data fix will be deployed to correct the organization name
SCSEP-2780	Prod-Data corrections as of 11/28/2022	Backend data correction script included to fix data issues, including: update Recertification Income, update Recertification Date, Delete Organization, remove Approved Break, update Exit Reason, Update Assignment End Date, update Date when the Waiver of Confidentiality was signed, remove/delete exit and return status to Active
SCSEP-2785	User Unable to Add Assignment and Exit that were mistakenly deleted	Backend data fix deployed to restore the deleted agency and exit data on the participant's record
