Release Notes – Version 3.0.2

Release Date: November 7, 2024

GPMS Release 3.0.2 addresses bug fixes discovered during the previous release.

Fixes

- The data from retired Sub-Grantees are excluded from all measures on the Internal Quarterly Progress Report (QPR). Similarly, data from retired Grantees are also excluded from the Nationwide QPR.
- The QPR measure 4b, Education Level, 9th Grade – 11th Grade, is now correct on both the Internal and Nationwide QPR. When a user selects ‘Completed 12 years of school but no HS diploma’ in the Highest Education Level Completed field on the Characteristics screen, the case now appears in the 9th Grade – 11th Grade row of the Education Level category in Section A on the QPR.

Known Issues

- None.
