Release Notes – Version 26.3

Release Date: October 9, 2026

These Release Notes provide information about GPMS Release 26.3, which includes several new features enhancements and issue resolutions.

New Features:

- **Veterans Status**
 - The calculation for **A.5n.Veterans (or Eligible Spouse of Veteran) on the Internal QPR** has been updated to include veterans who served less than 180 days to align with the WIPS QPR calculation
 - The two fields for **Veteran Status** have been combined into one field in the UI, and the detailed instructions have been revised to reflect this update. The new values for Veteran Status and detailed instructions are as follows:
 - **Eligible veteran** - a person who served in the active military, naval, air, or space service, and who was discharged or released therefrom under conditions other than dishonorable.
 - **Spouse of Veteran** - The participant is a spouse of any of the following individuals:
 - Any veteran who died of a service-connected disability.
 - Any member of the Armed Forces serving on active duty who, at the time of application for assistance under this part, is listed, pursuant to 556 of title 37 and regulations issued thereunder, by the Secretary concerned, in one or more of the following categories and has been so listed for more than 90 days:
 - Missing in action
 - Captured in the line of duty by a hostile force
 - Forcibly detained or interned in the line of duty by a foreign government or power
 - Any veteran who has a total disability resulting from a service-connected disability.
 - Any veteran who died while a disability so evaluated was in existence.
 - **Not eligible** - The participant does not meet any one of the conditions described above.
 - **Status not known** – The participant does not disclose veteran status.

- The **Post 9/11** Veteran measure has been updated to include veterans who served less than 180 days.
- The **Post 9/11** Veteran field will now be editable when Eligible Veteran Status is "Served less than 180 days" or "Eligible Veteran" is checked.
- PIRL 301 has been updated to include counts for **Status not known** in the Veteran Status.
- **Other New Features**
 - When a case is transferred, **Participant Required Actions (PRA)** data entered by the donor grantee prior to the transfer, will no longer be copied to the recipient case.
 - A new search function has been added to the **Manage Organizations and Contacts** Admin Console. Users will now be able to search for Organizations using the **Agency ID**.
 - Grantee Administrators will now be able to download the WIPS PIRL file from the Generate WIPS QPR admin console.

Enhancements:

- **Internal QPR**
 - The calculation for **Middle Eastern / North African** on the internal QPR has been updated to avoid double counting multiracial/multiethnic participants. If a participant is Middle Eastern / North African and Hispanic, they will now be counted only as multiracial/multiethnic.
- **WIPS QPR**
 - The **Generate WIPS QPR Addendum** and **Generate WIPS QPR** admin console cards will now only be available to Grantee Administrators. Users with Subgrantee Administrator privileges and below will no longer have access to these administrator functions.
- **Other Enhancements**
 - An enhancement has been made to the WIPS QPR so **Limited English Proficiency** and **Low Literacy Skills** are valued correctly when checked as both a Priority of Service and a Waiver Factor.
 - When a participant has a past enrollment with a **Retired Grantee**, those cases will now be visible in the **Participant History** tab.
 - The **Assignments by Host Agency** report has been updated to add the **Workers' Comp Code at Host Agency** field to the exported report.
 - When a user attempts to enter or edit an **Assignment End Date**, and paid hours have already been entered for a quarter after the new end date, an error message will prompt the user to confirm whether they want to proceed. If the user confirms and saves the new end date, any paid hours entered for quarters after that assignment end date will be removed from that assignment.

- If an applicant is determined **Ineligible**, the option to **Withdraw** the case will no longer be available.
- In the **View Transfer/Move History** Admin Console, Grantee Administrators will only be able to select grantees linked to their user account in the search field.
- The option to **Manage Program Introduction** has been removed from the **Related Actions** tab in cases.
- **Read Only** users will no longer be allowed to add or modify **Case Notes**.
- The Year to Date (YTD) Filter has been removed from the **Participant Hours Report (PHR)**. The PHR will include all quarters for the selected program year.

Resolved Issues:

- **Other Issues**
 - An issue that caused Training and Services records to continue to display in the UI after being deleted has now been resolved.
 - An issue causing the prompt “Do you wish to continue without an expected end date?” to be displayed in some cases when the **Expected End Date** had been entered correctly has now been resolved.

Known Issues:

- None.
